EASY ORDERING PROCESS!

SPEAK TO A SCIENTIST

Call, email, fill out a contact form or book a meeting on our website to discuss with our scientist about your custom order.

PLACING ORDER

After the initial consultation, another meeting can be requested depending on the complexity of the project or the order can be finalized for immediate production.

PRODUCTION & QUALITY CHECK

Our team of experts will synthesize your oligos using our advanced in-house methodologies.
** We can expedite your order per request.

DELIVERY & FOLLOW UP

Your order will be shipped from our HQ after the QC process. You will get a follow up email/call to gather your order feedback.

“TESTIMONIAL What People Say About Us”

“The team provides unprecedented services that **exceed my expectations in all aspects**. Superb customer service with **consistently quick email responses to questions** and quotations. Fast turnaround with high-quality products. The **team is very knowledgeable and easy to work with**. They set a high bar for what a service partner should be in the field.”

Head of Platform Validation
(Biotech Start-up)

“Synoligo is the only CRO I know of that will **provide material in as little as 2 weeks**. They are the **only vendor I know of that will guarantee low endo material, even at small scale**. On many projects they have **functioned more as partners rather than a service provider**. This has helped us with moving a number of projects forward more quickly. When time and purity are critical, **Synoligo is my go-to place**.”

VP, Research
(Pharmaceutical Company)

“Synoligo’s team was very helpful in providing solutions to the synthesis challenges I presented to them. They are highly collaborative and respond promptly. **Synoligo were willing to execute complex synthesis projects that other vendors did not and have done it with great professionalism**. I **highly recommend** choosing **Synoligo as your Oligonucleotide synthesis partner**.”
